

SOUTHWEST LIVING ROOMS

Living Rooms is a public art and sculptural seating project that transports domestic scenes into public space, playfully blurring the line between home and sidewalk in the Southwest DC neighborhood.

Installed at six bus stop locations across Southwest, these functional public art installations will provide much-needed seating at stops lacking benches or shelters. These welcoming bus stop art spaces aim to make the transit experience feel less impersonal and create new places for personal connection and community.

EACH INSTALLATION IS INTERPRETED AS AN ICONOGRAPHIC THREE-DIMENSIONAL LINE DRAWING THAT EVOKES THE FAMILIAR VISUAL LANGUAGE OF "HOME."
