TOPP 2025 Engagement

ANC 6D Meeting on January 13, 2025

ANC 6D Boundary

Question for ANC 6D Community

- What worked and what didn't?
- Any specific areas of concerns?
- Areas to improve?

What is a TOPP?

- **Traffic Operations and Parking Plan (TOPP)** is a plan that outlines strategies to manage travel for large crowds to and from big venues, such as Audi Field, Nationals Park and Capital One Arena. It's a public document, updated annually.
- TOPP for Audi Field/Nationals Park 2024: <https://ddot.dc.gov/page/traffic-operations-and-parking-plan-baseball-park>
- TOPP is a collaborative effort that involves multiple government agencies and community stakeholders:
 - District Department of Transportation (DDOT); Metropolitan Police Department (MPD)
 - Department of Public Works (DPW); Department for Hire Vehicles (DFHV)
 - Advisory Neighborhood Commissions (ANC 6D and ANC 6/8F)
 - DC United / Washington Nationals
 - Southwest BID
 - Capitol Riverfront BID

Why do we need a TOPP?

Audi Field capacity: 20,000

Nationals Park capacity: 41,000

Maximum impact: up to 60,000

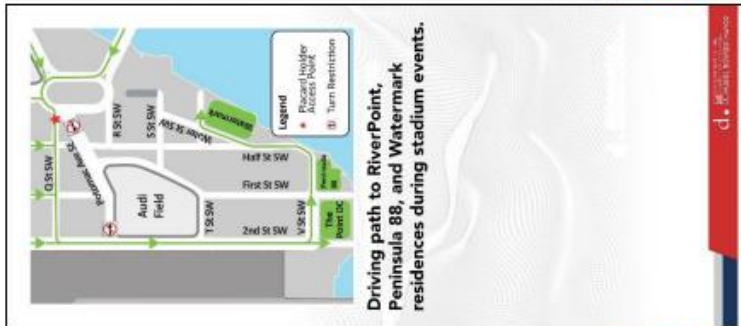

Anthem DC Capacity: 3,200 seats
(up to 6,000 standing)

- Minimize the traffic and parking on **residents of neighboring areas, businesses, and commuters**
- Reduce pedestrian-vehicle conflicts
- Provide efficient travel information to patrons
- Encourage the use of Metrorail and other transit options
- Enforce restrictions during games and events
- Manage the pick-up and drop-off activity of rideshare vehicles

2024 RESIDENTIAL ACCESS PLACARDS

- Residents of buildings adjacent to Audi Field or Nationals Park will receive a placard that grants them access to closed roads on event days.
- If a resident or guest does not have a placard with them, they may speak with the MPD officer stationed at the access point to gain access.
- Areas to improve:
 - What worked; what didn't work?
